NOTES TO THE PRICE LIST

IACUC Approval

All purchases of animals and services from InVivos must be accompanied by an IACUC-approved protocol number. We are unable to process orders without an IACUC-approved protocol number.

Prices

All prices shown in this list are before Goods and Services Tax (GST).

Prices in this list are effective from 1 January 2023.

Prices in this list are only valid for the period up to 31 December 2023.

InVivos reserves the right to change prices at any time.

Delivery

All animal orders are packed in filtered, plastic shipping containers within their Barrier Unit of origin. The shipping containers are called Taconic Transit Cages™ (TTC™) and are designed to provide the optimal shipping environment for today's sophisticated rats and mice. Your order will include a charge for the appropriate number of TTC™.

An additional charge will be added based on transport and delivery costs.

Animal Health Status

InVivos shall follow the health monitoring procedures and standards established by Taconic as their International Health Monitoring System™ (IHMS™) (see www.taconic.com)

Murine Pathogen Free™ (MPF™)

MPF™ rats and mice are monitored to verify that they do not harbor microorganisms that are known to be pathogenic under a variety of study conditions. MPF™ animals are free of Helicobacter sp. (H. bilis, H. hepaticus, H. rodentium, H. typhlonius, H. trogontum, H. muridarium*), Parvoviruses, Pasteurella pneumotropica and other pathogenic organisms. A description of the IHMS™ microbial monitoring procedures for MPF™ rodents may be found at www.taconic.com.

Restricted Flora™ (RF™)

RF™ animals harbor a wide variety of commensal microorganisms in their flora but the animals and their environment are intensively monitored to detect the presence of specific opportunistic bacteria that can be pathogenic in immunocompromised rodents. The animals are maintained in Barrier Units utilizing IVC technology to protect the animals from opportunistic organisms. The quality control laboratory screens monthly for 5 additional organisms that are not accepted in the RF™ colonies: Beta haemolytic Streptococcus species, Klebsiella pneumoniae and Klebsiella oxytoca, Pseudomonas aeruginosa, and Staphylococcus aureus. A description of the IHMS™ microbial monitoring procedures for the RF™ rodents may be found at www.taconic.com.

TERMS AND CONDITIONS OF SALE*

- (a) The Goods are supplied to the Purchaser on an "as-is" basis without any warranties, representations or conditions. The Purchaser assumes the entire risk as to the quality and fitness of purpose of the Goods.
- (b) All warranties, representations or conditions including but not limited to those relating to fitness for purpose, merchantable or satisfactory quality, durability or mortality rate of the Goods, whether express or implied by statute or common law or otherwise are hereby excluded to the fullest extent permitted by law.
- (c) Except in respect of personal injury or death caused directly by the negligence of INVIVOS, in no event shall INVIVOS be liable to the Purchaser for any loss or damage including any indirect, special, incidental or consequential loss or damage (including loss of profits) arising out of or in connection with this Contract as a result of any breach of this Contract, tort (including negligence), breach of statutory duty or otherwise.
- (d) Purchasers agree and acknowledge the following terms of use:
 - MODELS will be used for research purposes only
 - MODELS and biological materials derived from them will not be distributed to third parties or used for commercial purposes
