

New JAX strains- availability & price

Dear Researcher,

Good news for you!!

We are glad to announce that INVIVOS has licensed 5 new mice strains from JAX and received the pedigree stocks to breed and supply Singapore Biomedical research.

Please find the details of the new JAX strains:

1. CBySmn.Cg-Prkdc^{scid}/J : **CB17 SCID** (<https://www.jax.org/strain/001803>)
2. NOD.Cg-Prkdc^{scid}/J: **NOD SCID** (<https://www.jax.org/strain/001303>)
3. J:NU : **Outbred nude** (<https://www.jax.org/strain/007850>)
4. NU/J : **BALB/c Nude** (<https://www.jax.org/strain/002019>)
5. C57BL/6NJ : **B6N** (<https://www.jax.org/strain/005304>)

The mice strain will be available for supply from **01 January 2021** in limited quantities and request to send in your enquiries and orders to our customer service team. The price of the strains have been updated in our website and please refer to the 2021 price list in the link: <https://www.invivos.com.sg/2021-pricing/>

10% discount on list price will be provided for orders placed for delivery between the period 01 January 2021 to 31 March 2021.

To get further details on availability and to place your orders, please contact our Marketing or Customer Service Team at enquiries@invivos.com.sg.

Best regards,
InVivos Team
